

GIORGIO ANTONACI

Position

Patent Attorney.

Professional experience

He has gained experience in the patent field in international and corporate environments, having worked at the European Patent Office (EPO) in Rijswijk and Munich, and later in the patent division of a multinational company. Before joining Gregorj, he collaborated with another Italian firm specialized in Intellectual Property. His technical expertise focuses primarily on the fields of mechanics and automotive. He also has solid experience in industrial processes for the manufacturing of plastic materials. He has worked on technologies used in various sectors, including household appliances (particularly washing machines and dryers), valve systems, electromechanical switches and controls, LED lighting, aquariums and bicycles. He provides patent search services, advice on patentability and freedom-to-operate, and assists clients in developing protection strategies at both national and international levels. He is involved in the drafting and prosecution of Italian, European, and international patent applications. He also advises on the registration of industrial designs in Italy, Europe and internationally.

Education

Master's Degree in Automotive Engineering, Politecnico di Torino.

Qualifications

Italian Patent Attorney, registered before the Italian Patent and Trademark Office; European Patent Attorney, registered before the European Patent Office; qualified representative before the Unified Patent Court. He is also authorized to represent applicants in international patent and design procedures before the World Intellectual Property Organization (WIPO), as well as in matters relating to EU designs before the European Union Intellectual Property Office (EUIPO).

Languages

Italian (native), English, German.
